DETAILED ACTION

Allowable Subject Matter

1. Claims 21-29 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to claims 21-23, the prior art of record, for example, IBM Technical Disclosure Bulletin NN81024261, discloses an apparatus with a fixture and means for continually applying a compression force. *Final Rejection mailed 11/22/05*, paragraph 6. Breyen and Hahne disclose other apparatuses which can be read onto the limitations. *Id* at paragraphs 7 and 8. Hahne also discloses side members which can read on an alignment system. *Id* at paragraphs 8.

With respect to claims 24-26 and 27-29, NN81024261 and Hahne disclose structures that can hold down the layers. Additionally, Farahmandi as combined with NN81024261 or Breyen and Hahne above discloses a placement member. *Id* at paragraphs 11, 12 and 13.

However, the prior art of record, with respect to all of the claims, in the context of an apparatus for (or capable of) forming a capacitor stack, does not disclose an alignment system for aligning each of the plurality of capacitor layers as each capacitor layer is place onto the capacitor stack, wherein the alignment system includes a vision alignment system.

Drawings

3. The drawings filed 8/8/2003 have been approved by the Examiner.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
